OBJECTIVE

Having a passion for developing my teaching skills while creating a challenging and creative environment for students. The architectural students are particularly appealing to me, because students are very impressionable, interesting in learning, and open to new concepts. Also being a flexible team player who enjoys the excitement and challenges of working for a very successful and rapidly expanding organization through skillful management and by motivating, training and supporting the team to achieve higher standards of performance.

EDUCATION

Cairo University Faculty of Engineering - PHD in Architecture, October 2012.

“Towards Activating the Application of Cultural Heritage Projects through a Sustainable Impact Assessment Methodology.”
