FUTURE VISION

I am a (PhD student) at Khartoum university, Faculty of architecture. My study is based on Sustainable design, and I am a lecturer teaching students at DAU University about sustainable design issues: Sustainable site, natural resources in power supply system, efficiency in water, the material, how to design within these issues and manage building thermal comfort and minimize the amount of CO₂, by providing new technologies and proper solutions in design as well as energy efficiency and water efficiency and other ARC courses..

In focusing on both the cultural and social context, we can encourage students to create design projects under supervision of specialists and enter workshops. We can encourage better design and better quality of life.

United Nation Conference for Sustainable Development Rio+20 Agenda Next20-22 June 2012

I. Possible Stage Setting

1. We, the heads of State and Government, having met at Rio de Janeiro, Brazil, from 20-22 June 2012, resolve to work together for a prosperous, secure and sustainable future for our people and our planet.
2. We reaffirm our determination to free humanity from hunger and want through the eradication of all forms of poverty and strive for societies which are just, equitable and inclusive, for economic stability and growth that benefits all.
3. We are committed to making every effort to accelerate progress in achieving the internationally agreed development goals, including the Millennium Development Goals by 2015, thus improving the lives of the poorest people.
4. We are also committed to enhancing cooperation and addressing the ongoing and emerging issues in ways which will enhance opportunities for all, be centred on human development while preserving and protecting the life support system of our common home, our shared planet.
5. We urge bold and decisive action on the objective and timeline for the conference. We renew our commitment to sustainable development and express our determination to pursue the green economy in the context of sustainable development and poverty eradication. We further affirm our resolve to strengthen the institutional framework for sustainable development. Taken together our actions should fill the implementation gaps and achieve greater integration among the three pillars of sustainable development – the economic, the social and the environmental.

II. Renewing Political Commitment

1. Distilling Rio principles and past action plans
2. We reaffirm that we continue to be guided by the purposes and principles of the Charter of the United Nations and with full respect for international law and its principles.
3. We reaffirm our commitment to advance progress in implementation of the Rio Declaration on Environment and Development, Agenda 21, the Programme for the Further Implementation of Agenda 21, the Johannesburg Declaration on Sustainable Development and the Plan of Implementation of the World Summit on Sustainable Development, the Barbados Programme of Action and the Mauritius Strategy for Implementation. The Rio Principles shall continue to guide the international community and serve as the basis for cooperation, coherence and implementation of agreed commitments.
4. We also reaffirm our commitment to the Ministerial Consensus of the International Conference on Financing for
