

PERSONAL DATA

NAME : Abdulmoneim Ahmed Abdulmoneim Alfiky
Birth Date : 24-7-1978 **Birth Location** United Arab Emirates
Nationality : Egyptian
Address : 332 Mythak st.-Zahraa Nasr City-Apt. 14-Cairo-Egypt **Zip Code** : 11371
Tel. : (+202) 24 100 767 **Mob.** (+2) 010 00234 22
E-mail : ABDO.ALFIKY@GMAIL.COM

OBJECTIVE

Continue developing my intellectual capacity and critical thinking and advancing my academic and professional skills to meet future challenges through advanced scholarships and research.

EDUCATION

July 2009 **PhD Postgraduate studies**
Urban Planning & Design department, Ain Shams University, Egypt
May 2008 **Msc in Urban Planning & Design**
Thesis title “*Environmental Management Systems in Urban Areas*”
July 2003 **Postgraduate studies**
Urban Planning & Design department, Ain Shams University, Egypt
July 2001 **Bachelor of Science in Architecture, Urban Planning & Design Branch**
Urban planning & Design Department, Ain Shams University, Egypt
General grade **Very Good** (79.1 %), **Very Good** (80 %) in the graduation project and **Second** in order of merit, (*five years professional degree*)

PROFESSIONAL & RESEARCH AFFILIATIONS

Since 2003 **Urban-lounge**, Egyptian Urban Planning & Design Community on the Web
Since 2001 **Egyptian Engineering Syndicate**, Registered Planner & Urban Designer

ACADEMIC RESEARCH

May 2009 Environmental Tourism in Egyptian Natural Preserves (*Phd postgraduate-Ain Shams Uni.*)
March 2009 Urban Design Guidelines (*Phd postgraduate-Ain Shams Uni.*)
Oct 2008 Urban Environmental Management (*Co-Researcher*)
Jan. 2003 Implementation Mechanisms For New Egyptian Settlements (*Research Assistant*)
June 2002 Solid Waste Management in Ain Shams University (*Research Assistant*)
Mar. 2002 Visual Analysis of Cairo's Urban Districts (*postgraduate-Ain Shams Uni.*)
Dec. 2001 Research Methodology, *an Abstract* (*postgraduate-Ain Shams Uni.*)
Dec. 2001 Comparative Analysis of Urban Patterns in Cairo (*postgraduate-Ain Shams Uni.*)
Nov. 2001 New Urbanism, *New Trends in Urban Design* (*postgraduate-Ain Shams Uni.*)
Nov. 2001 Initial Review of the Fossilized Forest, Egypt (*postgraduate-Ain Shams Uni.*)
Oct. 2001 The Categorization Of Preserved Areas in Egypt (*postgraduate-Ain Shams Uni.*)

ACADEMIC & PROFESSIONAL POSITIONS

- August 2008-Present Egyptian Technical Consultancy Office, (*Planners & Architects*), ETCO
part time job
Junior Planner & GIS Specialist
- Oct 2007- Present Curriculum For Environmental Impact Assessment Courses, CEIAC, Ain Shams University, *EU Funded TEMPUS Project*
Cairo, Egypt
Steering Committee Member & Trainer
- Jan 2005-Jan 2008 Integrated Development Group, (*Planners & Architects*), IDG
part time job
Junior Planner & GIS Specialist
- Sept 2004-August 2006 New Curriculum For Geo Information Systems NCGIS, Ain Shams University, *EU Funded TEMPUS Project*
Cairo, Egypt
Assistant Instructor
- January 2002-Present Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
Junior Planner
- September 2001-Present Urban planning & Design Department, Ain Shams University
Cairo, Egypt
Teaching Assistant
- Sept 2001-Sept 2004 Engineering Consultant office for Planning & Architecture (*Planners & Architects*), ECOPA
part time job
Junior Planner

ACADEMIC GRANTS & TRAININGS

- Curriculum For Environmental Impact Assessment Courses, CEIAC, Ain Shams University, *EU Funded TEMPUS Project*
Cairo, Egypt
An upgrading academic project funded by the TEMPUS program aimed to develop a new curriculum for teaching Environmental Impact Assessment EIA to the undergraduate & postgraduate students.
- July 2009 **Intensive Course “Preparing EIA case study”**
Stuttgart University
Stuttgart, Germany
- Jan 2009- Feb 2009 **Intensive Course “Preparing EIA case study”**
Stuttgart University
Stuttgart, Germany
- December 2008 **Advanced Spatial and Integrated Modelling Course**
Ain Shams University
Cairo, Egypt
- November 2008 **Spatial Modelling Course**
Ain Shams University
Cairo, Egypt
- Jan 2008- Feb 2008 **Joint Academic Training For Teaching Environmental Impact Assessment & Environmental Planning Courses**
Stuttgart University
Stuttgart, Germany

- Dec 2007- Jan 2008 **Trainee in a TOT (*training of trainers*) program**
 Ain Shams University
 Cairo, Egypt
- New Curriculum For Geo Information Systems NCGIS, Ain Shams University, *EU Funded TEMPUS Project*
 Cairo, Egypt
 An upgrading academic project funded by the TEMPUS program aimed to develop a new curriculum for teaching Geo Information Systems GIS to the undergraduate students.
- August 2006 **GIS Intensive Training Course**
 Technical University of Braunschweig
 Braunschweig, Germany
- April 2005 **Introduction to Programming with ArcObjects & VBA**
 Ain Shams University
 Cairo, Egypt
- June 2004-August 2004 **Trainee in a TOT (*training of trainers*) program**
 Ain Shams University
 Cairo, Egypt

ACADEMIC EXPERIENCE

- September 2001-Present Assisting in teaching the following subjects in the Urban Planning & Design Department, Ain Shams University, Egypt:
- Regional Planning
 - Town Planning
 - Housing
 - Urban Design
 - Architectural Design
 - Computer Applications in Planning

PROFESSIONAL EXPERIENCE

- July 2009 - Present Consultancy Unit For Planning & Urban Design, CUPUD
 Urban planning & Design Department, Ain Shams University
 Cairo, Egypt
 Hamlet Boundaries Project – Qaliobia Governorate
- A leading project on the national scale, aiming to allocate all the Egyptian hamlets (*ezab*), define their boundaries and create base & landuse maps for them using recent satellite imagery, plus proposing urban boundaries for each of them.
 Responsible for developing the following :
- Overseeing the surveying process and map digitizing using recent satellite images.
 - Organizing the process of certifying the allocation maps from localities, city centers and local people senate.
 - Overseeing data automation procedures & steps.
 - Overseeing production of GIS databases & map production processes.

Special Task: internal coordinator of the project.

August 2008 - Present

Egyptian Technical Consultancy Office, (*Planners & Architects*),
ETCO

Participating in Strategic Urban Planning and Detailed Planning
of Khanka City

Junior Planning Expert & GIS Specialist

An upgrading project for Khanka City, a main city of Qaliobia Governorate aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process. A project initiated by the General organization for Physical Planning GOPP for all cities of Egypt, utilizing participatory planning and basic GIS urban database for the first time on that scale.

Responsible for developing the following :

- Overseeing the process of updating old maps and defining land-uses, building heights, conditions & construction methods using recent satellite images.
- Overseeing data automation procedures & steps.
- Participating in city consultation meetings & presentations.
- Production of maps and analytical data required by the project consultants.
- Report writing and final editing.

Special Task: internal coordinator of the project.

Feb. 2007 – Sept. 2007

Integrated Development Group, (*Planners & Architects*), IDG
Strategic Urban Planning and Detailed planning of Assuit City

Junior Planning Expert & GIS Specialist

An upgrading project for Assuit City, capital of Assuit Governorate aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process. A project initiated by the General organization for Physical Planning GOPP for all cities of Egypt, utilizing participatory planning and basic GIS urban database for the first time on that scale.

Responsible for developing the following :

- Team leader for Updating old maps and defining land-uses, building heights, conditions & construction methods using recent satellite images.
- Overseeing data automation procedures & steps.
- Participating in city consultation meetings & presentations.
- Production of maps and analytical data required by the project consultants.

July 2007–August. 2007 Integrated Development Group, (*Planners & Architects*), IDG
Urban Planning and Design of El-Hufof Historical Area, El-Hasaa, Kingdom of Saudi Arabia.

GIS Specialist

An urban upgrading project for El-Hufof district, a main historical area in the Kingdom of Saudi Arabia, aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process while maintaining the historical integrity for this important area.

Responsible for developing the following :

- Designing the GIS database used for the project.
- Overseeing the surveying procedures and data automation steps.
- Production of maps and analytical data required for the project.

Nov. 2006 – Sept. 2007 Integrated Development Group, (*Planners & Architects*), IDG
Master Planning and Development of industrial areas

Junior Planning Expert & GIS Specialist

A national project for developing existing industrial areas throughout Egypt, initiated by the Industrial Development Agency. Aims to document exiting industrial plants, their specialty, conditions, working status, ownership,...etc. plus proposal of development master plan.

Responsible for developing the following :

- Designing the GIS database used for the project.
- Overseeing the surveying procedures and data automation steps.
- Production of maps and analytical data required for the project.

The industrial areas included in the project:

- 10 industrial areas in Ismaila, Suez, North Sinai and Sharqya.
- 12 industrial areas in Marsa Matrouh, Alexandria and Borg El-Arab.

June. 2006 – Dec. 2006 Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
The National Project for the Strategic Plans of the Egyptian Village

Junior Planning Expert & GIS Specialist

A leading project on the national scale, aiming to develop strategic plans for the Egyptian villages. Takes off were the previous “*The Regional Project for the Guidance Plans for the Egyptian Village*” stopped. The goal of the project is to develop strategic development plans for the Egyptian village with the help of its residents (participatory planning).

Responsible for developing the following :

- Team leader for Updating old maps and defining land-uses, building heights, conditions & construction methods using recent satellite images.
- Preparation of basic GIS databases for the villages from updated urban surveying maps and satellite images.
- Running basic GIS calculations & analysis of the current conditions of the villages.
- Based on population growth rates, family size, future employment opportunities...etc. allocating future housing and services project in and around the villages.
- Proposal of an Urban Boundary for each village.

The villages involved in urban survey:

- – 7 villages, Monshaat Polin Locality - Kafr Eldawar Center – Behaira Governorate.

Special Task: Organizing & Assisting in participatory meetings in villages.

April 2006 – Dec. 2006

Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
Planning of the areas surrounding the Informal settlements in
Cairo

GIS Specialist

An exploratory project initiated by the General organization for Physical Planning GOPP to investigated the possible actions in dealing with the perimeter areas surrounding informal settlements in the Greater Cairo Region. Studying of population growth, survey existing conditions in and around settlements, evaluating housing and service needs, preparing preliminary studies, reports and master plan (for selected areas).

Responsible for developing the following :

- Designing the GIS database used for the project.
- Updating and integrating exiting maps and data in the designed database.
- Production of maps and analytical data required by the project consultants.
- Integrating proposed plans inside the GIS system.

Jan. 2006 – July 2006

Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
The National Project for the Strategic Plans of the Egyptian
Village

Junior Planning Expert & GIS Specialist

A leading project on the national scale, aiming to develop strategic plans for the Egyptian villages. Takes off were the previous “*The Regional Project for the Guidance Plans for the Egyptian Village*” stopped. The goal of the project is to develop strategic development plans for the Egyptian village with the

help of its residents (participatory planning).

Responsible for developing the following :

- Team leader for Updating old maps and defining land-uses, building heights, conditions & construction methods using recent satellite images.
- Preparation of basic GIS databases for the villages from updated urban surveying maps and satellite images.
- Running basic GIS calculations & analysis of the current conditions of the villages.
- Based on population growth rates, family size, future employment opportunities...etc. allocating future housing and services project in and around the villages.
- Proposal of an Urban Boundary for each village.

The villages involved in urban survey:

- 12 villages, Tellin Locality – Menya Elkamh Center – Sharqia Governorate
- – 5 villages, Kafr Ayoub Soliman Locality – Belbes Center – Sharqia Governorate

Special Task: Organizing & Assisting in participatory meetings in villages.

Dec. 2005

Integrated Development Group, (*Planners & Architects*), IDG
The Participatory Strategic Urban Planning for Manshiet
Nasser District, Cairo

GIS Specialist

A leading project in the field of dealing with informal settlements. Utilizing large scale participatory actions to induce a strategic urban plan of local societal acceptance, – funded by the GTZ, Germany.

Responsible for the following:

- Upgrading all exiting maps of the settlement from older GIS formats to newer database model to benefit from its higher analytical capabilities.

July 2005- Oct. 2005

Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
The National Project for the Strategic Plans of the Egyptian
Village

Junior Planning Expert & GIS Specialist

A leading project on the national scale, aiming to develop strategic plans for the Egyptian villages. Takes off were the previous “*The Regional Project for the Guidance Plans for the Egyptian Village*” stopped. The goal of the project is to develop strategic development plans for the Egyptian village with the help of its residents (participatory planning).

Responsible for developing the following :

- Preparation of basic GIS databases for the villages from updated urban surveying maps and satellite images.

- Running basic GIS calculations & analysis of the current conditions of the villages.
- Based on population growth rates, family size, future employment opportunities...etc. allocating future housing and services project in and around the villages.
- Proposal of an Urban Boundary for each village.

The villages involved in urban survey:

- Villages of Kafr Shehata Locality – Kafr Saad Center – Demitta Governorate

Special Task: Organizing & Assisting in participatory meetings in villages.

June 2004 – Sept. 2004

Engineering Consultant office for Planning & Architecture (*Planners & Architects*), ECOPA

The Master Plan of Sanores City, Fayoum Governorate, Egypt

Junior Planner / Junior Population & Housing Expert

An upgrading project for Sanores City, a main city in Fayoum Governorate aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process.

Participating in developing the following :

- Developing the final Master Plan.
- Defining and distributing population densities.
- Estimating the future housing needs; types of housing and amounts.
- Developing Implementation phases.

Special Task: Assisting in first drafts of the final report.

August 2004

Consultancy Unit For Planning & Urban Design, CUPUD

Urban planning & Design Department, Ain Shams University
Cairo, Egypt

The Regional Project for the Guidance Plans for the Egyptian Village

Senior Urban Surveyor

A leading project on the national scale, aiming to develop guidance plans for the Egyptian villages for the first time in its history. The goal of the project is to develop a new image of the Egyptian village that is economically, socially, environmentally sustainable.

Responsible for the following :

- Head Team leader for all surveying teams for Updating old maps and defining land-uses, building heights, conditions & construction methods.

21 villages involved in urban survey at Shebin Elkanater Center – Qaliobia Governorate

- Sept. 2003 – May 2004 Engineering Consultant office for Planning & Architecture
(*Planners & Architects*), ECOPA
The Master Plan of El-Kharga City, New Valley Governorate,
Egypt
Junior Planner / Junior Population & Housing Expert
- An upgrading project for El-Kharga City the capital of the New Valley Governorate aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process. Participating in developing the following :
- Developing the final Master Plan.
 - Defining and distributing population densities.
 - Estimating the future housing needs; types of housing and amounts.
 - Developing Implementation phases.
- Special Task: Assisting in final report writing.***
- April 2003 Engineering Consultant office for Planning & Architecture
(*Planners & Architects*), ECOPA
Housing Competition for the Egyptian Ministry of Housing,
Utilities & Settlements
Urban Analyst
- The Egyptian Ministry of Housing, Utilities & Settlements declared three competitions for the urban design of three huge land parcels in the suburbs of Cairo, Egypt. Every competition had its own type of housing; middle, above-average & upper class housing types. The competitors had to develop a certain style to their urban design as the winning design was going to be an example of the urban context required in those suburbs.
- First prize for the upper class urban design competition***
- Responsible for developing various type of analysis for the competition including:
- Environmental analysis.
 - Site analysis.
 - Hierarchy of roads.
 - Distribution of green areas & open spaces.
- Special Task: rendering of 3d models of the projects.***
(*computer based*)
- March – August 2003 Consultancy Unit For Planning & Urban Design, CUPUD
Urban planning & Design Department, Ain Shams University
Cairo, Egypt
The Regional Project for the Guidance Plans for the Egyptian Village
Junior Population & Housing Expert / Urban Surveyor
- A leading project on the national scale, aiming to develop guidance plans for the Egyptian villages for the first time in its history. The goal of the project is to develop a new image of the Egyptian village that is economically, socially, environmentally sustainable.

Responsible for developing the following :

- Team leader for Updating old maps and defining land-uses, building heights, conditions & construction methods.
- Forecasting the future social conditions and economic growth based on past and present data available.
- Estimates of the future population based on social, economic indicators (population growth rates, family size, future employment opportunities...etc.)
- Estimates of the future housing needs & allocating possible future housing projects.

The villages involved in urban survey:

- Anshas-elRaml Village, Belbis Center, Sharkia Governorate.
- Adlia Village, Belbis Center, Sharkia Governorate.
- Samakeen-elGharb, Hosinia Center, Sharkia Governorate.
- Monshaat-alKeram Village, Shibeen-ElKanater Center, Kaliobia Governorate.
- AL-Ahraaz Village, Shibeen-ElKanater Center, Kaliobia Governorate.
- Shobra-Nabas Village, Kotoor Center, Gharbia Governorate.

The villages under my responsibility:

- Anshas-elRaml Village, Belbis Center, Sharkia Governorate.
- Samakeen-elGharb, Hosinia Center, Sharkia Governorate.
- El-Mahdia, Hehia Center, Sharkia Governorate.
- Monshaat-alKeram Village, Shibeen-ElKanater Center, Kaliobia Governorate.
- AL-Ahraaz Village, Shibeen-ElKanater Center, Kaliobia Governorate.

Special Task: Assisting in final report writing.

Dec. 2002 – Feb. 2003

Engineering Consultant office for Planning & Architecture
(Planners & Architects), ECOPA

The Master Plan of Aramant City, Qena Governorate, Egypt

Junior Planner / Junior Population Expert

An upgrading project for Qena City aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process.

Participating in developing the following :

- Problem recognition.
- Defining possible constraints and potentials.
- Elaborating alternative plans for the city.
- Electing the better alternative with proper criteria.
- Developing the final Master Plan.
- Defining and distributing population densities.
- Developing Implementation phases.

Special Task: Assisting in final report writing.

Oct. 2002 – Nov. 2002 Engineering Consultant office for Planning & Architecture
(*Planners & Architects*), ECOPA
Competition of The New Office Building for The Energy
Planning Agency (*first prize*)
Junior Architect

The Energy Planning Agency is an official government agency concerned with the sustainable use of energy and renewable resources. The competition required a building that manifests the ideas and the principles of the agency.

July 2002 – Sept. 2002 Architecture Design Department, El-Azhar University, Egypt
The Regional Project for the Guidance Plans for the Egyptian
Village
Junior Population & Housing Expert
(*through ECOPA Bureau*)

A leading project on the national scale, aiming to develop guidance plans for the Egyptian villages for the first time in its history. The goal of the project is to develop a new image of the Egyptian village that is economically, socially, environmentally sustainable.

Responsible for developing the following :

- Forecasting the future social conditions and economic growth based on past and present data available.
- Estimates of the future population based on social, economic indicators (population growth rates, family size, future employment opportunities...etc.)
- Estimates of the future housing needs & allocating possible future housing projects.

The villages under my responsibility:

- Atmida Village, Meet-Ghamr Center, Dakahlia Governorate.
- Beshla Village, Meet-Ghamr Center, Dakahlia Governorate.
- Kafr-Behida Village, Meet-Ghamr Center, Dakahlia Governorate.
- Damass Village, Meet-Ghamr Center, Dakahlia Governorate.
- Meet-elFaramawee Village, Meet-Ghamr Center, Dakahlia Governorate.
- Dondate Village, Meet-Ghamr Center, Dakahlia Governorate.
- Kafr-Sarnaga Village, Meet-Ghamr Center, Dakahlia Governorate.
- Kom-elNoor Village, Meet-Ghamr Center, Dakahlia Governorate.
- Aolila Village, Meet-Ghamr Center, Dakahlia Governorate.
- Meet-Nagi Village, Meet-Ghamr Center, Dakahlia Governorate.

Special Task: Assisting in final report writing.

- Jan. 2002 – June 2002 Engineering Consultant office for Planning & Architecture
(*Planners & Architects*), ECOPA
The Master Plan of East Awinat City, New Valley Governorate,
Egypt
Junior Planner
- Planning of a new urban settlement in the East Awinat area, aiming basically to become a service town for the increasing economic growth in the area and to match the ambitious plans made for its future.
- Participating in developing the following :
- First phase data analysis including environmental analysis and site analysis.
 - Defining possible constraints and potentials.
 - Developing the Master Plan.
 - Defining housing types and population densities.
 - Developing Implementation phases.
- Special task: designing and implementing the graphical representation of the project for the presentation attended by the Egyptian Minister of Housing, Utilities and Settlements. (PowerPoint based)***
- Sept. 2001 – June 2003 Engineering Consultant office for Planning & Architecture
(*Planners & Architects*), ECOPA
The Master Plan of Tamia City, Fayom Governorate, Egypt
Junior Planner
- An upgrading project for Tamia City aiming to develop a better land-use distribution, hierarchy of services & roads and planning the future services required for the upgrading process.
- Participating in developing the following :
- Problem recognition.
 - Defining possible constraints and potentials.
 - Elaborating alternative plans for the city.
 - Electing the better alternative with proper criteria.
 - Developing the final Master Plan.
 - Developing Implementation phases.
- Special Task: Assisting in final report writing.***
- Summer 1998 Arab Contractors Company, Egypt
Undergraduate Trainee
- Working and training with the Arab Contractors Company in the construction of middle class housing project for the Egyptian Ministry of Defense, (*Internal Decoration Phase*)

ATTENDED CONFERENCES, WORKSHOPS & SEMINARS

- July 2009 *Colloquium, Strategic Planning + Sustainable Urban Development Cairo*
Stuttgart, Germany
- Oct 2008 *Second International Conference of Architecture and Urban Planning Departments "ARUP 2008"*
Cairo, Egypt
- June 2008 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- June 2007 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- Oct 2006 *First International Conference of Architecture and Urban Planning Departments "ARUP 2006"*
Cairo, Egypt
- June 2005 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- June 2004 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- Sept. 2003 *Environment 2003 Conference*, Ministry of State for Environmental Affairs,
Cairo, Egypt
- Sept. 2003 *Workshop on Italian Technology for Waste Recycling, Water Treatment and Energy Recovering, And Presentation of ECOMONDO International Exhibition for Material and Energy Recovery and Sustainable Development*
Cairo, Egypt
- June 2003 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- June 2002 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- April 2002 *The Regional Conference & Exhibition For GIS Applications*
Cairo, Egypt
- June 2000 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- June 1999 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt
- Oct. 1998 - *Towards A New Trend In Architecture*, Seminars organized by the Center
Feb. 1999 Of Planning & Architectural Studies, CPAS, Cairo, Egypt
- June 1998 *The International Conference & Exhibition For Building & Construction*
Cairo, Egypt

EXTRACURRICULAR RECORD

- April. 2009 Tour to El-Fayoum, Egypt...*Site Seeing of the Qaroon Lake & Wadi El-Rayan natural reservations. Both Staff members & Post-Graduate students of the Urban Planning & Design Department, Ain Shams University, Egypt*
Event Coordinator
- April 2007 Annual Exhibition for Urban Planning & Design Department
Ain Shams University, Cairo, Egypt
Event Coordinator / Budget Manager

- April 2006 Annual Exhibition for Urban Planning & Design Department
Ain Shams University, Cairo, Egypt
Event Coordinator / Budget Manager
- Oct. 2004 Tour to Alexandria, Egypt...*Site Seeing of the Historic City & Visiting the Alexandria Library. Both Staff members & students of the Urban Planning & Design Department, Ain Shams University, Egypt*
Event Coordinator
- June 2003 Annual Exhibition for Urban Planning & Design Department
Ain Shams University, Cairo, Egypt
Event Coordinator / Budget Manager
- Feb. 2003 Tour to Alexandria, Egypt...*Site Seeing of the Historic City & Visiting the Alexandria Library. Only Staff members of the Urban Planning & Design Department, Ain Shams University, Egypt*
Event Coordinator
- April 2000 Annual Exhibition for Architecture, Planning & Urban Design Departments
Ain Shams University, Cairo, Egypt
Organizer
- April 1998 Annual Exhibition for Architecture, Planning & Urban Design Departments
Ain Shams University, Cairo, Egypt
Organizer / Event Coordinator

SKILLS

- Excellent command of Arabic (mother tongue), and English with Basic French.
- Working knowledge of image processing software including AutoCAD, Adobe PhotoShop & 3D Max as well as basic knowledge of ArchiCAD, Remote Sensing applications.
- Working knowledge of Geo Information Systems GIS Applications (ARCGIS) as well as GIS system thinking and model design.
- Excellent command of word processing, spreadsheet and presentation software for IBM systems particularly Microsoft Office.
- Excellent research skills, as well as professional reporting and writing capacity.
