Work

2016 - Now

- Lecturer at the Arab Academy for Science and Technology - Architecture Department

2004 - Now

- Freelance Architect: Having my own office, coordinating closely with new clients meeting their needs for new image, reaching their demands. From the point of receiving the building from the brick stage going through the whole process of setting the drawings, pricing, re-designing the facades, demolishing and reconstructing the internal walls, plumbing, electrical work, plastering, till the last stage of furnishing (drawings, choosing fabrics, putting specifications, choosing lines, buying or manufacturing the furniture).
- Having my own business gave me a great credibility for holding big responsibilities and dealing with tough situations.

2008

- Head of the Engineering Department: Was appointed by BEVERLY HILLS COMPANY FOR MANAGEMENT OF CITIES AND MONTAJAT to transfer the whole department of managing the existing and under construction compound of BEVERLY HILLS from SODIC to BEVERLY HILLS COMPANY. The site was divided into different sectors of villas, flats, club, central mall, and a whole new site under construction, and the duration of the job was 3 months. I successfully managed, staffed and trained a new team of the Engineering department at BEVERLY HILLS COMPANY, archived the whole work, the whole new team dealt with the clients with enthusiasm and motivation. We produced permits, revised the drawings, inspecting the work done on the site and sometimes offered to do the redesigning for the existing villas and flats. My work was very successful and met with great appreciation.

1996-2003

- Partner of the senior team at M.E.G.A Plan Consultancy Office: I was working closely with group of architects putting the preliminary and the final drawings for several major projects.

1990-1991

- El-Shams Housing & Developing Co. (1990-1991), participated in general Housing projects.

1988-1990

- Institute of Housing & Building & Planning (1988-1990), participated in general housing studies.

1986-1990

- MIT-Cairo University, participated the general planning of Great Cairo (The Ring Road and the 7 satellites around Cairo).
- Worked at Dr. Ahmed Fahim & Hisham Amr Bahgat (Professors at Cairo University) private Architectural Office, participated in putting the designs and landscape of several villas.
- Worked at Dr. Abu Zeid Rageh office, participated in several housing projects and hospitals.

Skills

- Drawing/Painting (Traditoinal Drawing, Oil Painting, Textile Painting, Handmade Ceramics, etc)
- Adobe Photoshop
- AutoCAD
- Microsoft Word
