Career Objective:

Seeking a challenging position in **The Architectural Field** within a professional and dynamic firm that will enable me utilize and enhance my educational background, knowledge and expertise towards achieving own and organization objectives.

Educational Background:

- **2008 – 2013: Bachelor of Faculty of Engineering, British University in Egypt (BUE), Certified from Loughborough University, United Kingdom**
 - Specialization: Architectural Engineering
 - Overall grade: 3.1; **Very Good with Honours**

- **Graduation Project:**

Title: “Aqua City: Complex of a marine research center and aquarium”
The project is a complex of marine research center and an aquarium available for the scientist on one hand and on the other hand for tourist to be able to see some of the most dangerous marine animals located in the Red sea. Justification for the project is that although Egypt is surrounded with widely different fish resources, such as; the Red Sea, Mediterranean Sea, Nile River and Nasser Lake, marine research centers are rarely found.

 - Graduation Project **Design** Grade: **Very Good**

- **Graduation Project Thesis:**

Title: “Towards Achieving Sustainability in Construction: Constructability as a Tool for Reducing Project Waste”

 - Graduation Project **Thesis** Grade: **Very Good**

- **2008: Deutsche Evangelische Oberschule (DEO), Egypt**

Egyptian High School Certificate, Thannawya Amma

 - Overall grade: 89%
