Employment History

Department of Architecture, Faculty of Engineering at Shoubra, **Jan.2006– present**
Banha University

Firstly, I joined the department as a demonstrator while doing my master research at Cairo University. Secondly, in 2011, I was elevated to assistant lecturer position after awarded the mentioned master degree. Currently, I work as a lecturer after granted my PhD degree from this employer institution. Through these 12 years, I have participated in educating different courses: architectural design, urban design, housing, building construction, and working design.

Key Responsibilities

- Managing a group of students to develop their professional and academic skills
- Providing some theoretical lectures
- Making some open discussions among the students
-

Al-Marwan Consultant Bureau

Aug. 2015 – Dec. 2015

It is a private company that has two branches in Egypt, providing multi consultancy affairs in architectural projects. I had been invited to hold the position of Cairo-branch director to restructure and constitute some teams appropriated for different tasks; especially in the coordination stage between different disciplines for commercial, administrative, and tourist projects.

Key Responsibilities

- Managing different departments
- Hiring new senior and Junior architects
- Doing sequential meetings with the clients and different disciplines
- Doing design briefs and management sheets for some projects

Khebraat Integrated Consultation, Prof. Dr. Ali El-Sawy

Aug. 2006 – Jan. 2015

It is a private company providing multi consultancy affairs in architectural projects inside and outside Egypt. I had joined the bureau as an architect. After a while, I have gradually elevated until reaching project manager position in 2012. Meanwhile, I have participated in preparing tender full-packages

for diverse projects such as educational, commercial, administrative, tourist, and healthcare projects inside and outside Egyptian context. Furthermore, I was participated in site supervision (finishing works) for administrative buildings.

Key Responsibilities

- Managing architectural design and construction departments
- Hiring new Junior architects
- Coordination with different disciplines
- Doing design briefs and management sheets for some projects
- Preparing construction documents for tender purposes
