Experience

2003 – Date

Lecturer, Architectural Dep., University of Technology, Iraq

As a Lecturer in the Architectural Dep. I was teaching Theory of Architecture for the 4th.year students and Architectural Design for 2nd, 3rd and 5th years students.

2007 – 2009

Senior Urban Designer, Supreme Committee for Town Planning, Sultanate of Oman

The committee is responsible for the urban and regional planning in the Sultanate. I am currently in charge for number of large scale projects including managing budgets, delivery timelines, and architectural design. Also, preparing terms of reference and evaluating proposals to select the consultants to implement the projects.

- 2001 – 2003 Architect, Engineering Affairs Directorate Presidential Divan, Iraq**
The Engineering Affairs Directorate is responsible for design and construction of the presidential projects including presidential palaces and large scale mosques. I have worked within the architectural design team on major projects including Um-Al-Qura Grand Mosque and Iraqi Embassy Building in Spain.
- 1998 – 2001 Architect, Engineering Consultancy Bureau, University of Technology, Iraq**
The bureau is responsible for providing engineering consultancy services for public and private sectors. I was working within design teams of major projects including the State Grand Mosque in Baghdad and number of commercial and residential buildings.
- 1998 Architect, National Consultant Bureau, Iraq**
A well known private bureau provides engineering consultancies in different fields including architectural and structural designs. I was working on number of important projects including Al-Faw Panorama, Army Theater, and number of hotels.

Major Projects

2007

Duqum Town Center-Oman

Preparation of the urban design for the town center of Duqum new town in Al-Wusta region in the Oman. Duqum acts as a major industrial growth pole developed recently by Oman government. Role involves preparing the land use distribution, circulation, and the urban design of the town center both on 2, and 3 dimensions.
